PRESS RELEASE

Exa Signs New Distributor and Expands into China with PowerFLOW

BURLINGTON, MA. USA— August 6, 2007—Exa® Corporation, a privately-held global innovator of fluids simulation software and technologies for product development optimization welcomes a new distributor, T-Solution Group, to sell Exa software and services in China. This new distribution channel further expands the already rapidly growing Asian market for Exa.

“There is significant global momentum for Exa’s solution suite, and the ground transportation industry in Asia is the fastest growing region,” remarks Jim Popeo, Executive Vice President for Exa Corporation. “T-Solution Group has proven themselves capable of managing and maintaining Exa’s presence in China with their highly-qualified engineering staff. We are confident that our customers will receive excellent support with T-Solution Group and that they will help continue to expand the use of Exa’s PowerFLOW® its extension applications throughout China.”

“We’ve seen the market in China explode, remarks, Roy Chen, President, T-Solution Group, “Engineers are anxious to adopt globally-recognized applications such as Exa’s PowerFLOW simulation suite to improve and accelerate their design and development processes. At T-Solution Group, we are excited to have Exa’s applications to offer our customers and prospects – the potential in China is enormous.”

About T-Solution Group

T-Solution Group is a leading CAE/CAD solutions and engineering consulting provider with over ten years of dedicated service helping clients in China with the integration and implementation of design and analysis software and consulting. With over sixty employees across China, in four regional offices, T-Solution Group is well equipped to support Exa’s PowerFLOW suite of products for new and existing customers in China.

T-Solution Group is headquartered at RM27H Cross Region Plaza. No. 899 Lingling Rd, Shanghai, P.R.C 200030. Tel: Tel: +86 21 5425 7218; Fax: +86 21 5425 7209; URL: www.t-solutiongroup.com.cn
